

MEMORANDUM

TO: The Honorable Mayor and Town Council
FROM: India Adams-Jacobs, MPA, ICMA-CM *(candidate)*, Town Manager
SUBJECT: Town Manager's Update-February 2023
DATE: March 10, 2023 (for March 15, Council Meeting)

Central Drainage Area Project- The bid process for this capital improvement project has closed, and the contract was executed this week. A pre-construction meeting will be held with the selected firm (Sagres Construction) during the week of March 13th. Town staff anticipate receiving a projected construction timeline and will ensure this information is made publicly available via our various communication channels. As a reminder, this project is fully funded (\$2.5M) by ARPA funds and has an estimated nine-month construction timeline after the groundbreaking.

Parks & Recreation Master Plan- Berry Dunn, the firm hired by the town to complete our parks and recreation master plan, is prepared to present their findings. Everyone who attended the community workshops and participated in focus groups in January or took the online survey is highly encouraged to attend and participate in the unveiling of the work compiled from those meetings and community surveys. Mark your calendars to participate in this meeting held on **Wed, March 22, 5:30-7:00 pm at the Community Center - 717 Marshall Ave.**

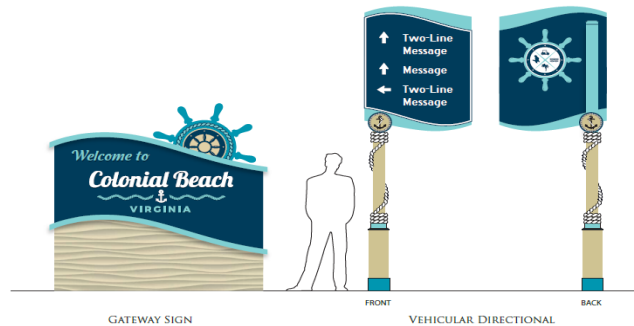

Stormwater & Resiliency Plan- In February, staff held the initial kickoff meeting with the consultants (Berkley Group & TetraTech) for the Town's first-ever resilience and stormwater management plans. Since then, the group has continued to work through this phase, which includes data collection and gathering. Initial community engagement efforts are planned for the spring of 2023 and then the fall of 2023. This plan will identify and prioritize resilience and stormwater projects, enabling the Town to address these critical issues for our waterfront community strategically. This collaborative effort is between the Town Manager's Office, Community Development & Zoning, and the Department of Public Works. This project is funded by a \$103,500 grant from the Community Flood Preparedness Fund and ARPA funds.

MEMORANDUM

WAYFINDING DESIGN CONCEPT
February 6, 2023

Wayfinding Signage Project- In 2022, the town received grant funding from the Virginia Department of Housing & Community Development and funding from the Virginia Tourism Commission to assist the town with improving our parking, wayfinding, and gateway signage. The town has acquired the services of Frazier & Associates to lead this effort in collaboration with town staff and stakeholders. Since the last update, the consultants and staff have worked on updating our parking signage after new times and rates were changed and connected with VDOT on requirements for our signage. In the coming weeks, the project will go to bid for construction.

Parking Program Update- The Town Council approved new parking program changes, including recent rate changes, new times, golf cart-only parking, and additional parking spaces.

FY24 Budget- The FY24 budget process is currently underway. The Colonial Beach Public Schools budget was presented to the School Board on Wednesday, March 8th. The Superintendent will present the proposed budget to the Town Council during the March 15th regular meeting. See the budget calendar from the January agenda for more information regarding the budget process.

MEMORANDUM

From the Mayor
Robin Schick, Administration Liaison

The accomplishments of 2022 have laid the groundwork for a successful new year. 2023 will be a year of progress and physical improvements for Colonial Beach. The long-awaited Central Drainage Area will break ground in our downtown core and will be under construction for approximately nine months. The Designated Outdoor Refreshment Area (DORA) program, now known as Sip N' Stroll, had a successful start in December and continues with the organizational support of Downtown Colonial Beach. The next Sip N' Stroll events will be held on March 10th and March 17th and 18th, featuring the Irish band, Blackthorn Shillelagh, for St. Patrick's Day weekend. Several new restaurants and downtown retailers are making their homes in town, and economic development is in full swing. As is often the case, infrastructure changes will require flexibility and patience on the part of residents and tourists alike.

From the Vice Mayor
Kenny Allison, Parks & Rec and Finance Liaison

Parks and Recreation Update
As we welcome 2023, we also welcome the BerryDunn consulting firm. The Town of Colonial Beach has retained the services of BerryDunn, a national parks, recreation, and open space consulting firm to assist us with developing our Parks and Recreation Master Plan. Mr. James Mickie and his associate conducted an online survey as well as a three day workshop (Jan 23-25) soliciting feedback from town staff, residents and focus groups. The overall feedback from the public has been overwhelmingly positive and inspiring. It has been wonderful to see everyone coming together to provide their input for the betterment of the community. The results of the Parks and Recreation Master Plan should be delivered to the Town of Colonial Beach sometime in late Spring or early Summer. We look forward to sharing that information with the public.

Town Newsletter- Colonial Beach Connector- The spring edition of the revamped official newsletter of the Town of Colonial Beach is out and available now. Check out the link here to read exciting news about the Town from the Town Council. -
