

Pronto Feature Overview

For Students

Pronto Mobile App

Features:

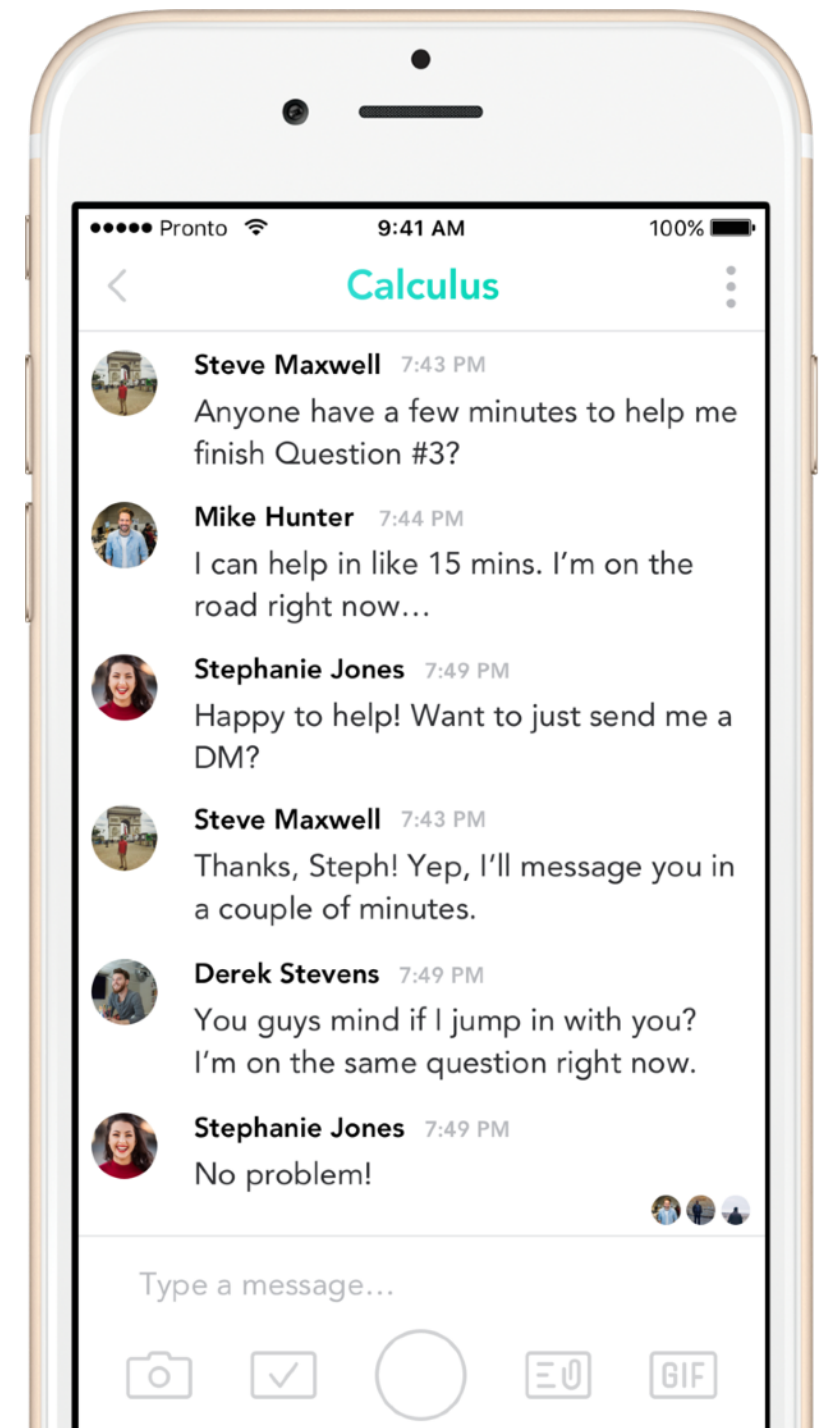

- Works on web, iOS, and Android devices
- Communicate through text, GIF, reactions or live video
- Read receipts let you know who has seen any message
- Share any file type, including: PDF, Word, PowerPoint, Excel, Pages, Numbers, Keynote, Zip
- File sharing syncs with iCloud, Google Drive, Dropbox & your device
- All files are stored and organized for fast retrieval.

Real-Time Chat

Chat with professors, classmates, school administrators, and student services workers to stay connected *in real time*.

Countless Student-Focused Features:

- Get immediate help on assignments and other coursework
- Form study groups or connect with tutors for additional support
- Connect with professors through “virtual” office hours
- Deepen relationships with fellow students by forming social groups
- Receive important news and announcements from campus administration

Live Video Conferencing

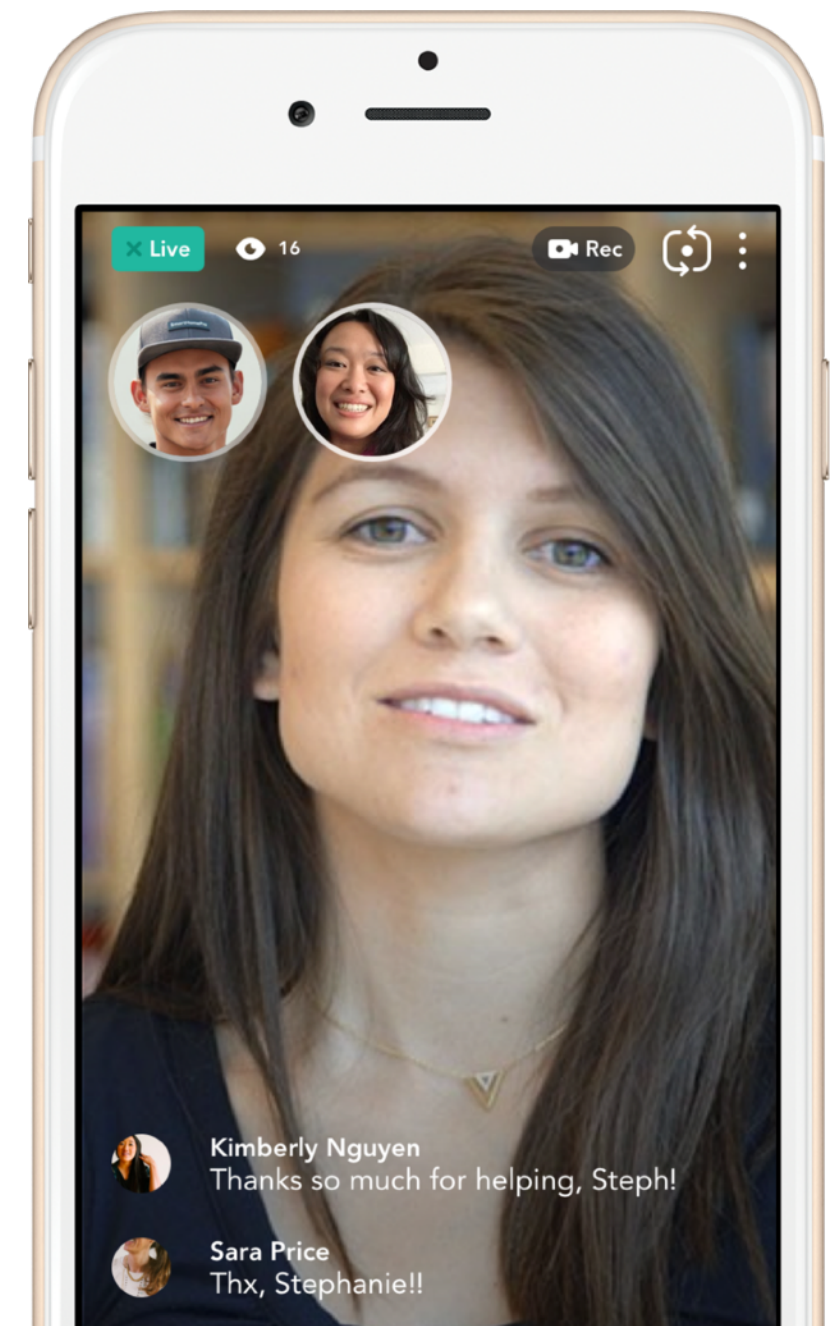

Pronto's hassle-free Live Video Conferencing helps students connect remotely with one another, professors, and advisors.

- ★ Broadcast lectures, guest speakers, or other events happening on campus
- ★ Participate in live video study sessions with classmates and study groups
- ★ Enable professors to conduct virtual office hours from anywhere
- ★ Create a simpler, more frequent connection between students and advisors

Features:

- Participate as a viewer only or transmit video with a group
- One-tap conferencing—no dial-in numbers or access codes
- Record and archive any live video conference
- Live Video Chat with up to 10 people simultaneously*

* Default setting is 10 simultaneous live videos and can be increased on a per customer basis

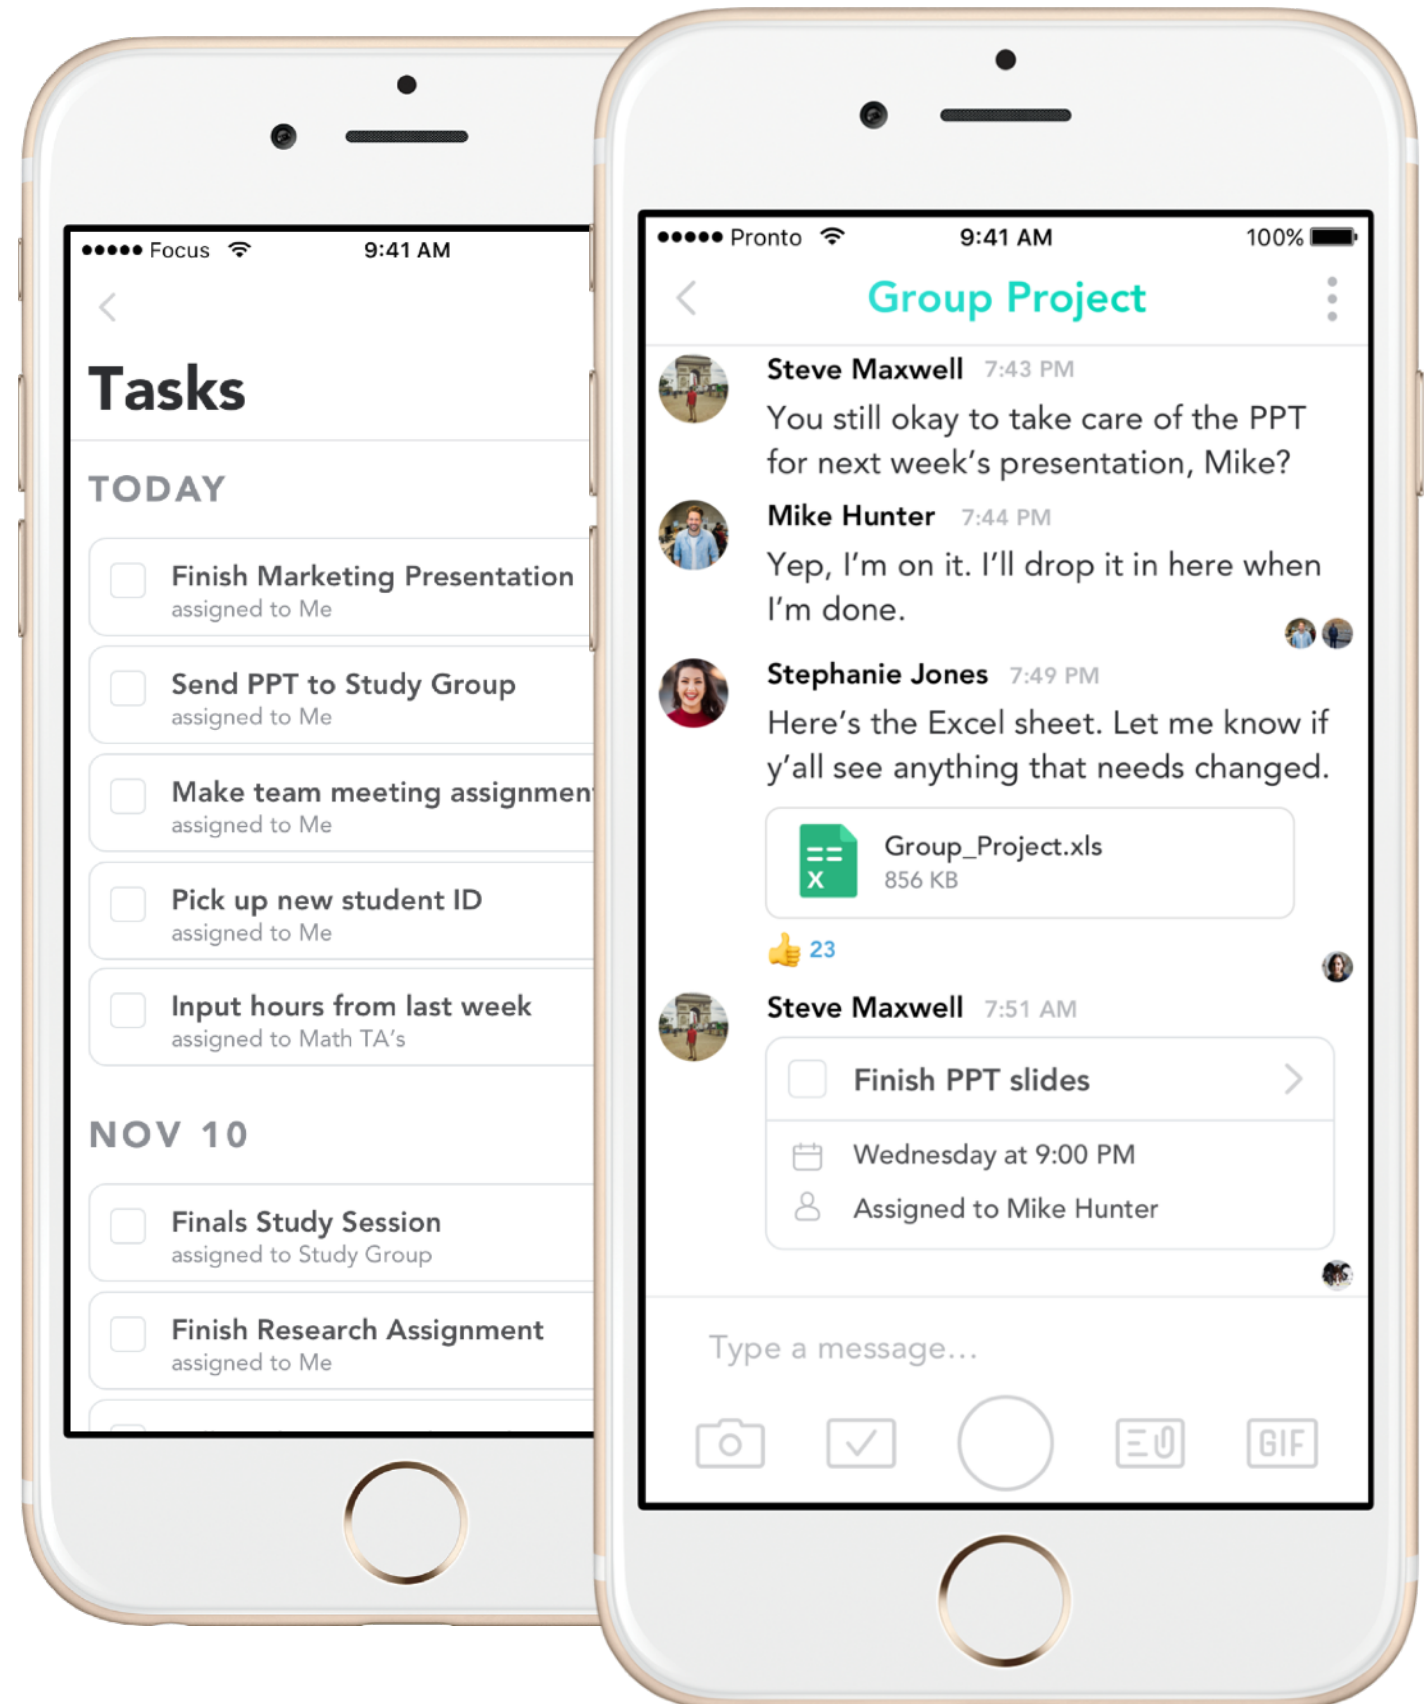

Task Management

Create, assign, and manage tasks and to-do lists for group projects, assignments, or other goals and objectives.

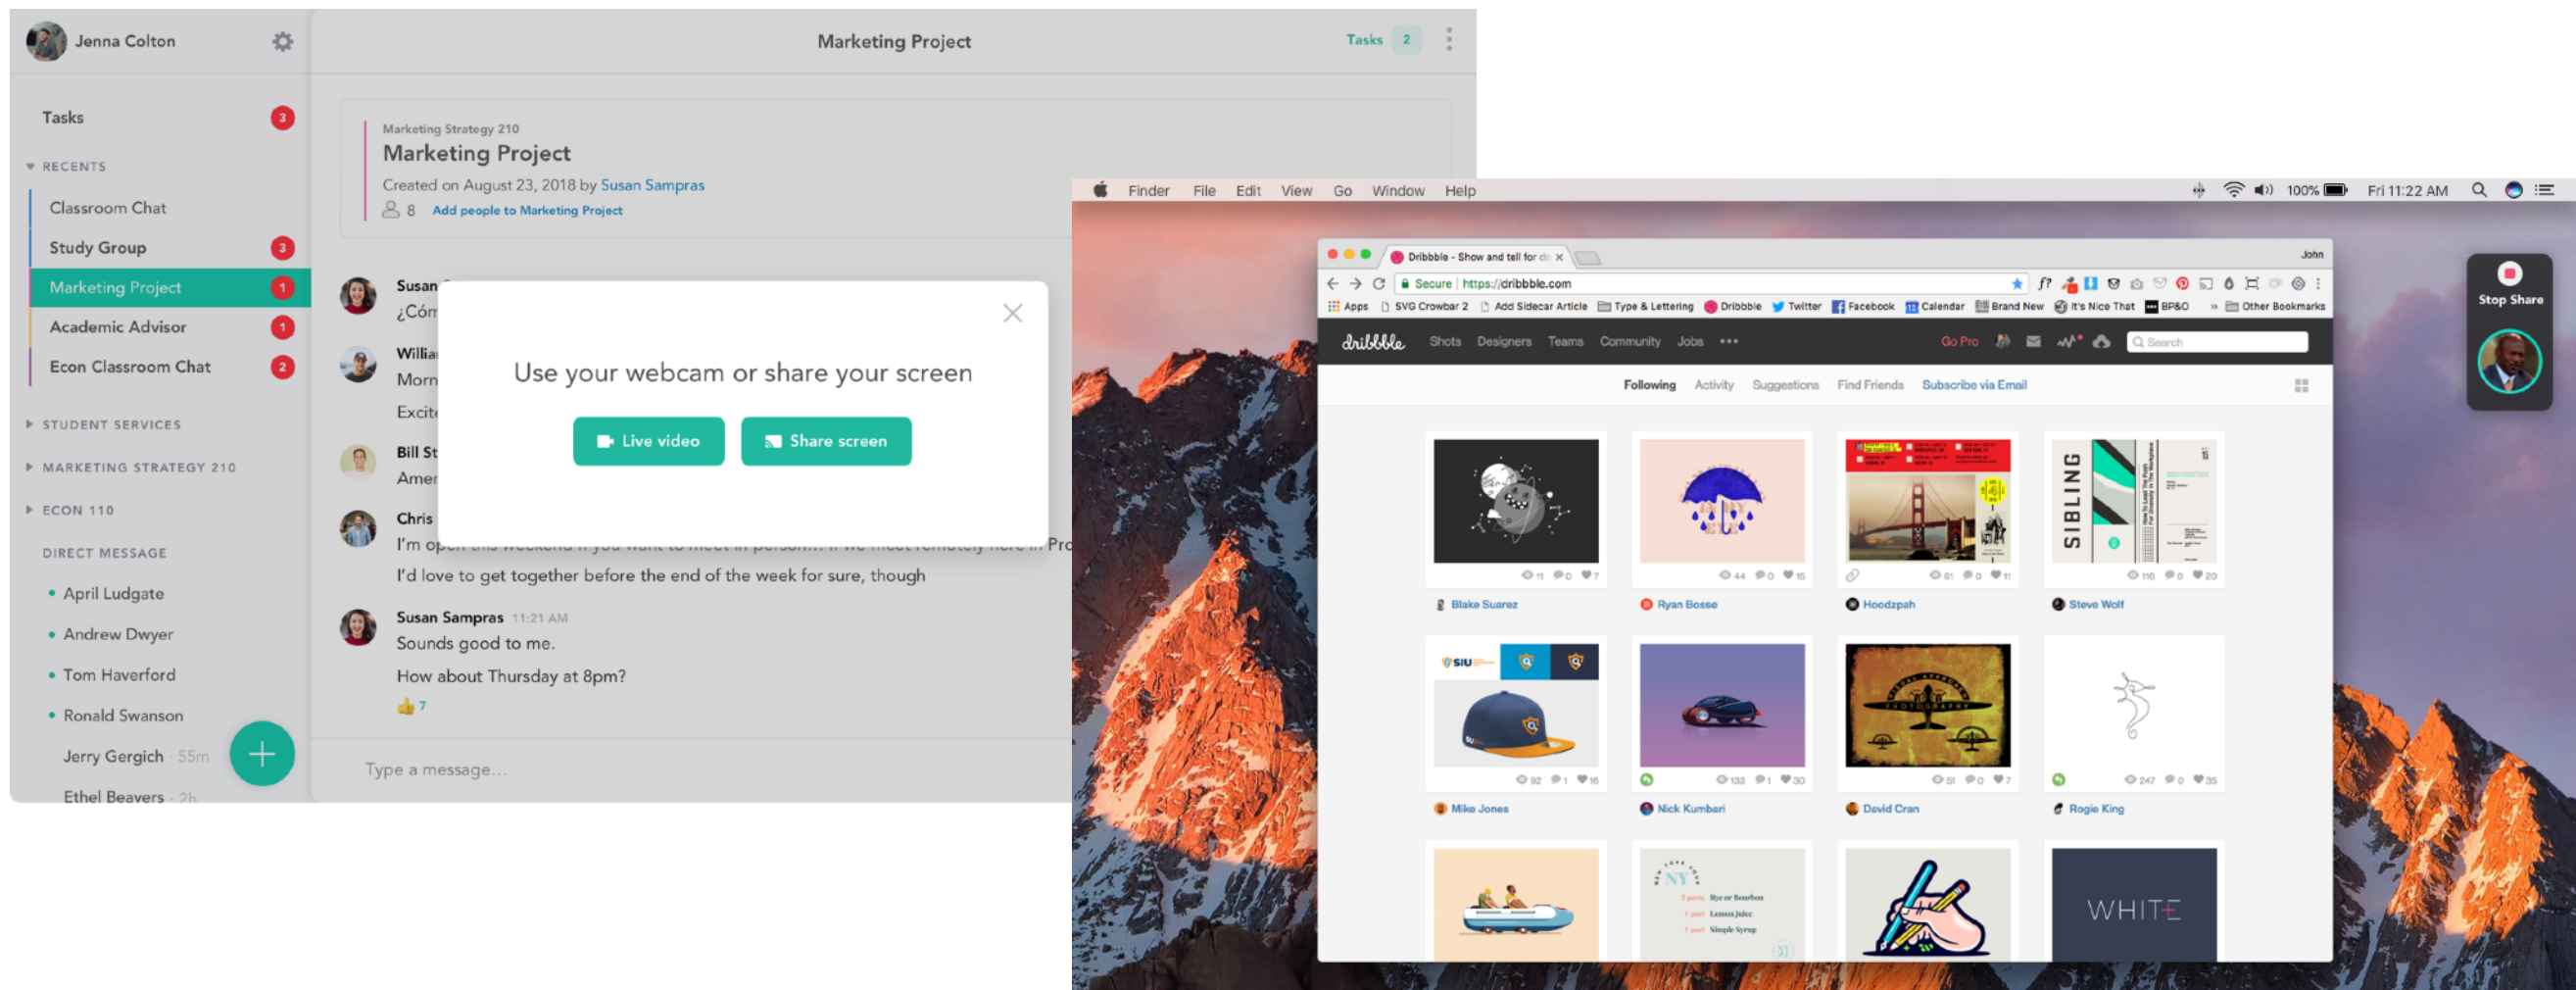

Features:

- Assign tasks to individuals or an entire group
- Track history of completed tasks
- Track efficiency (how long it took to complete a task)
- Get notified instantly when tasks you created are completed
- See what tasks you have coming up and when they are due

Screensharing

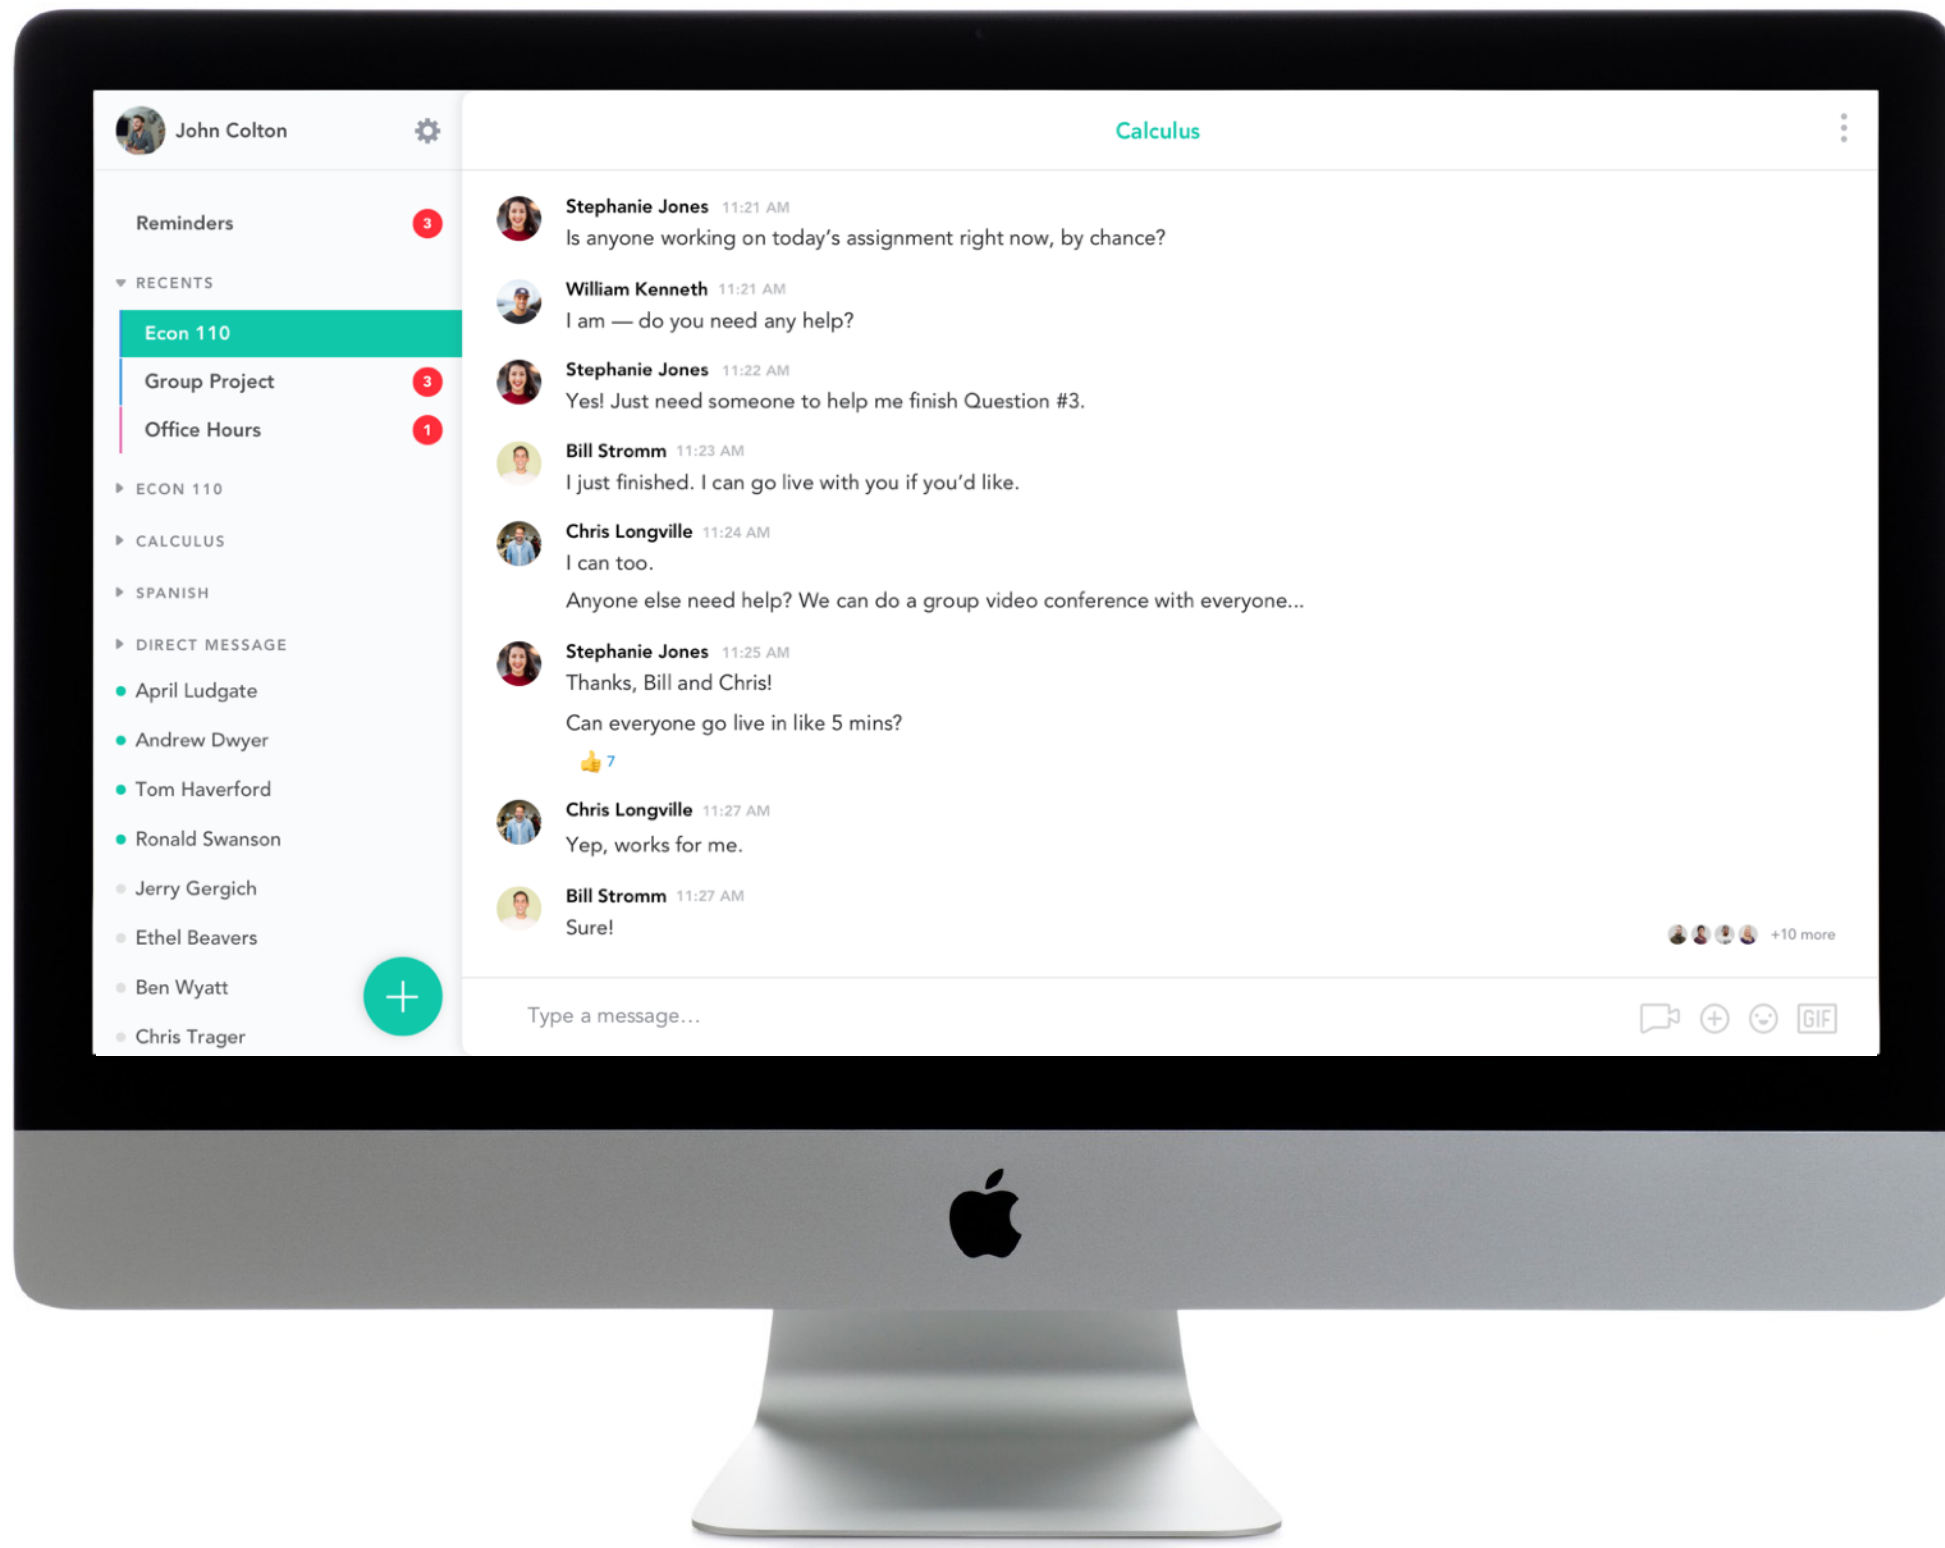

Collaborate on a deeper level by sharing your screen with group members during a live video conference.

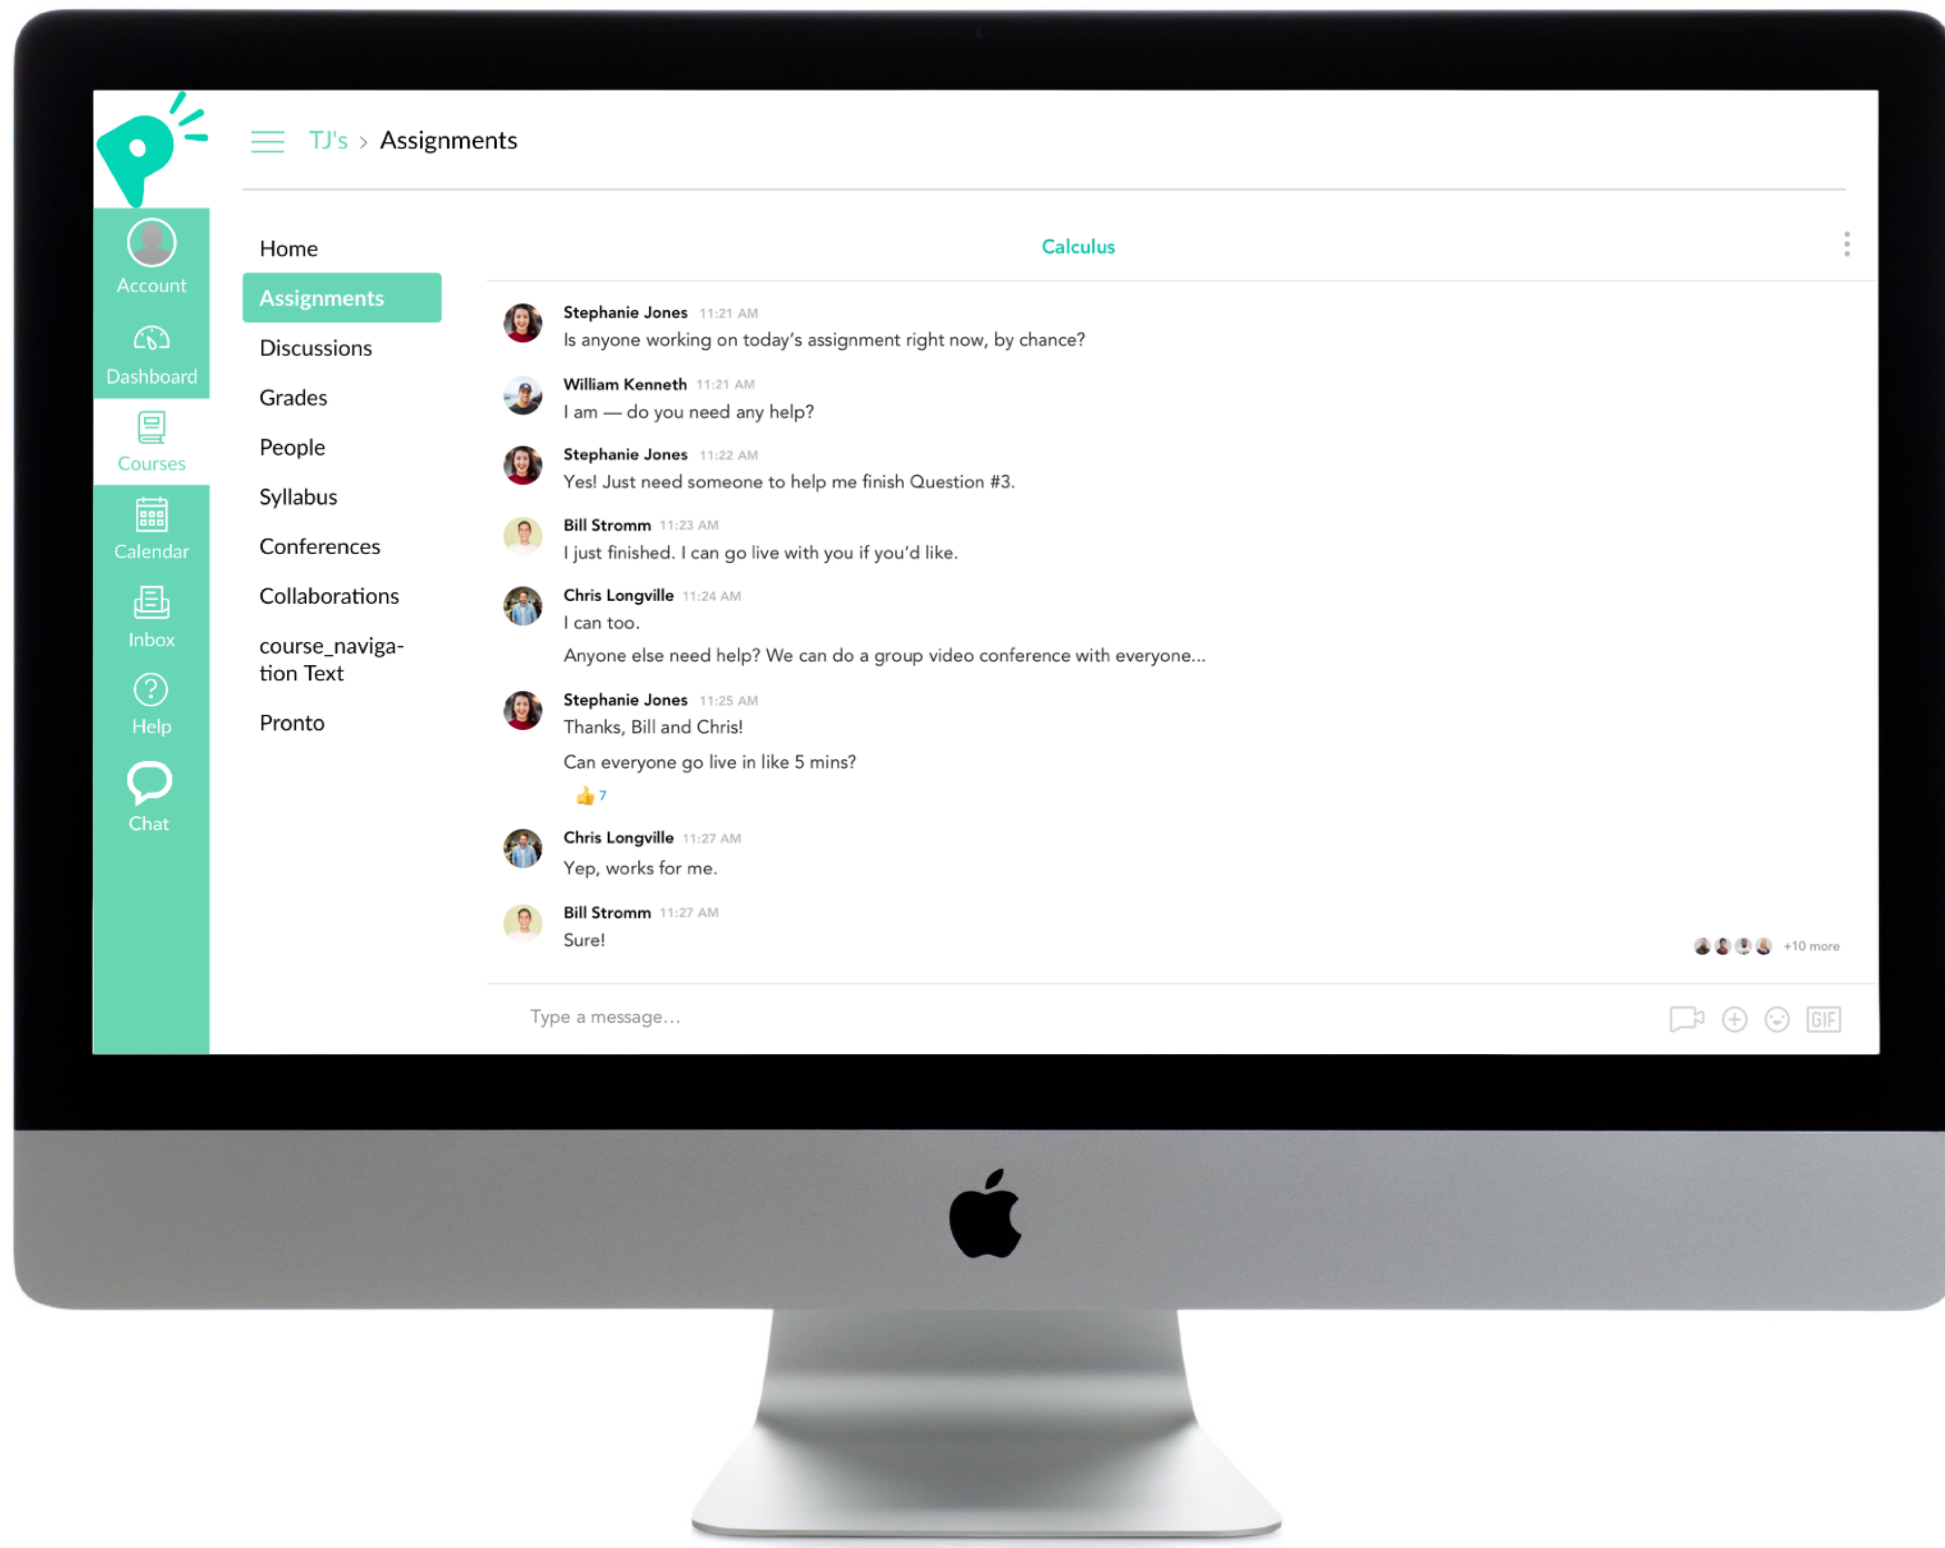

Automatic Message Translation

Users can send a message in one language while the recipients receive the message automatically translated into their native language.

Standalone Web App

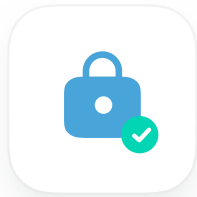

Integrates with Canvas

Key Benefits

Security

Pronto is FERPA-compliant. All communication done inside of Pronto's secure login experience and closed-format communication ensures that all information shared is private and secure.

LTI-Compliant

Pronto is LTI-compliant and integrates with all major LMS platforms, supporting single sign on, automated user provisioning, course and section syncing, and group creation.

Accessibility

Pronto is equipped with industry-leading accessibility capabilities that rival those of the world's most used communications applications. Our VPAT is available upon request.
